

Andrea Do

AI ENGINEER · BUSINESS STRATEGY SUPPORT

+1 240 432 5888 | linhandrea@gmail.com | bioflowr | andreado

Summary

AI Engineer with 7+ years of experience in machine learning and data science to solve problems in medical research and business. Worked in multidisciplinary teams from research to product delivery. Shaped solutions and deployed AI at scale. Curiosity-driven and focused on impact.

Work Experience

Trellis Data

Arlington, Virginia, USA

AI ENGINEER - BUSINESS STRATEGY SUPPORT

Jul. 2024 - Aug. 2025

- Collaborated with cross-functional teams across engineering, product and client-facing roles and represented the company at conferences with partners and stakeholders
- Led the delivery of a voice AI receptionist for a construction-supplies client, handling inbound calls, email notifications, and escalation workflows
- Designed and built an agentic LLM solution for auditing unstructured documents against ISO standards
- Built a pipeline to generate text translation training datasets for low-resource languages
- Mentored graduate students at the Australian National University to spin off an incubator-stage product

Forrest, ACT, Australia

AI ENGINEER

Feb. 2022 - Present

- Implemented agentic large language model (LLM) systems for evaluation, editing and textual outputs, using retrieval-augmented generation (RAG) for real-time knowledge acquisition
- Developed parsing algorithms to ensure complete information extraction from unstructured documents
- Improved object detection, speech to text and text to speech model performance by continuous training and LoRA fine-tuning on novel domain-specific datasets
- Researched beam search algorithms and fine-tuned speech to text models on low-resource languages

John Curtin School of Medical Research

Canberra, ACT, Australia

BIOINFORMATICS OFFICER

Jun. 2018 - Feb. 2022

- Performed single-cell RNA sequencing (scRNA-seq) analysis and developed RShiny web app to visualise and explore analysis outputs
- Built data pipelines for high performance computing (HPC) research loads
- Worked with a multi-disciplinary team of researchers and PhD students on experimental design and data management

Commonwealth Scientific and Industrial Research Organisation (CSIRO)

Canberra, ACT, Australia

RESEARCH OFFICER

Nov. 2017 - Jun. 2018

- Designed and conducted research projects in the Agriculture and Food Business Unit. Main project featured in Bayer's internal reports

Honors & Awards

2017 **Novo Nordisk International Talents Scholarship Program**, The University of Copenhagen

Denmark

2017 **CSIRO Summer Vacation Scholarship, Agriculture and Food**, Canberra, ACT

Australia

2016 **ANU Summer Research Scholarship**, Canberra, ACT

Australia

Education

Australian National University (ANU)

Canberra, Australia

MASTER OF COMPUTING

Feb. 2020 - Jun. 2022

Specialised in Machine Learning

Australian National University (ANU)

Canberra, Australia

BACHELOR OF MEDICAL SCIENCE

Mar. 2015 - Nov. 2017

Exchange at the University of Copenhagen
